

MD of Big Lakes

Heritage Site Survey

... a work in progress!

Background

- Started Heritage Site Survey process in May 2011
- What is unique about our project?

...mapping!

Our Process

- Created list of potential sites
- Gathered information:
 - Ownership
 - Street and mailing addresses
 - ATS locations and legal descriptions
 - Property Identification (PID) numbers
- Entered data in EXCEL spreadsheet

Our Process

- EXCEL data exported to ACCESS database
- ACCESS Database linked to ArcReader Mapping System using PID #'s
- Heritage mapping layer created

Sample ArcReader Map

Information Sources

- ArcReader mapping system:
 - property ownership
 - street addresses
 - ATS locations
 - PID and LINC numbers
 - Aerial photos and other site features

Information Sources

- Dynamics tax roll inquiry
 - complete ownership info
 - mailing addresses

Final Product

- Location maps, site maps and EXCEL database printed for survey team
- Distinct Heritage Site Identification (HSID) number for each site, shown on maps and database
- Aerial photos on maps assist location of buildings on site

Map Title: Heritage Sites within the MD of Big Lakes: Shown by Heritage ID Number

The map shows a grid of land parcels, many of which are shaded yellow to indicate heritage sites. Various roads and water bodies are labeled. A legend in the top left corner provides details on symbols used for different types of heritage sites and infrastructure.

Sample Individual Site Map

Summary

With nearly 300 heritage sites to review, these tools are essential:

- Spreadsheet for tracking information
- Mapping for locating sites
- Database to link spreadsheet and maps
