HOLDEN HERITAGE SURVEY

YOU CAN HELP...

The Village of Holden hired Heritage Collaborative Inc. to conduct a Heritage Survey and Inventory.

A Heritage Survey and Inventory is a planning tool used by the Village to protect, conserve and manage potential heritage sites that contribute to the character of the community. This is done by documenting potential heritage sites using photographs and Provincial Heritage Survey forms.

Sites eligible for inclusion were built before 1960, retain their heritage integrity, and are important in some way to the community. Inclusion on a Heritage Survey and Inventory does not legally impact the property.

As part of the Survey and Inventory process, Heritage Collaborative Inc. would like to invite the residents of Holden to contribute any information they might have about the identified buildings.

Do you know...

- ...when the building was built?
- ...who built the building?
- ...who lived there or what business(es) occupied the site?

Do you know the dates occupied?

- ...if additions or renovations have been done to the building?
- ...anything else about the building?

The list, with photos, is at the Holden Museum

Visit the Museum: Wednesday, Friday, Saturday, or Sunday
Noon – 4 pm
